Catalogue of ornaments

About this document

This document exists to show the reader what ornaments exist in the libraries. It does **not** indicate that any of them are suitable for a specific audience. For this document, ornaments are shown preceded by their number, surrounded by a pale blue box, and with a short horizontal line marking the baseline. The box represents how big TeX has been told they are. It is known that there are some boxing errors. The worst of these have been corrected, but a mechanism exists (e.g. `\OrnamentTweakX{pgfhan}{77}{-15.5}` to refine others).

The Default Ornaments (vectorian)

A *lot* of these ornaments are not suitable for scripture...
